BEEF + LAMB NEW ZEALAND (B+LNZ) GENETICS BEEF PROGENY TEST PROGRAM

Charolais Breeders NZ Ltd Council have put forward a second selection
of NZ Charolais Bulls this year. One Irish and an Australian Charolais
bull semen may have also been used. Council decided to use fewer
bulls to potentially get a more condensed and robust set of results.
To date the first round of calves born in 2015 had limited co-horts
the 2016 calves are on the ground, the data is still being processed.
In a landmark Trans-Tasman collaboration, Beef + Lamb New Zealand
Genetics and Meat and Livestock Australia are committing a total of
