

ORARI GORGE HEREFORDS

WWW.ORARIGORGE.CO.NZ

*Formally known as Nithdale Herefords
Established 1947*

**53rd ANNUAL BULL SALE WEDNESDAY JUNE 7th 2017 at 11.00am
ORARI GORGE STATION, GERALDINE**

The main objectives of the herd have always been to focus on breeding functional, structurally sound cattle with good conformation to meet today's market. The stud was moved to Orari Gorge in its entirety in 1991 from Southland and we changed the name to Orari Gorge Herefords in 2009.

Our 250 stud cows are run with our 400 commercial cows on steep, high tussock country over 3000ft from weaning to calving. Snow is a frequent problem, challenging the Hereford longevity and soundness. As early adopters of Breedplan EBV analysis, we have over 25 years of records to show steady progress to benefit our High Country clients.

SALE BULLS INCLUDE SONS OF
