

Submitting Mature Cow Weights

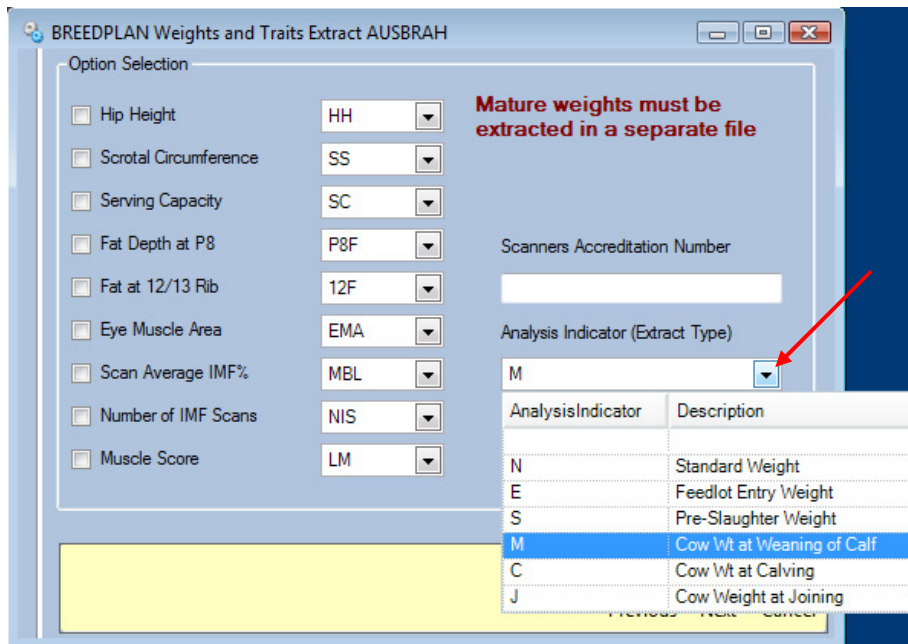

To submit Mature Cow Weights, it is essential that the **Analysis Indicator** is set to **M** when generating the Weights and Traits Report.

Mature Cow weights must be submitted in a separate file, other weighings must not be included.

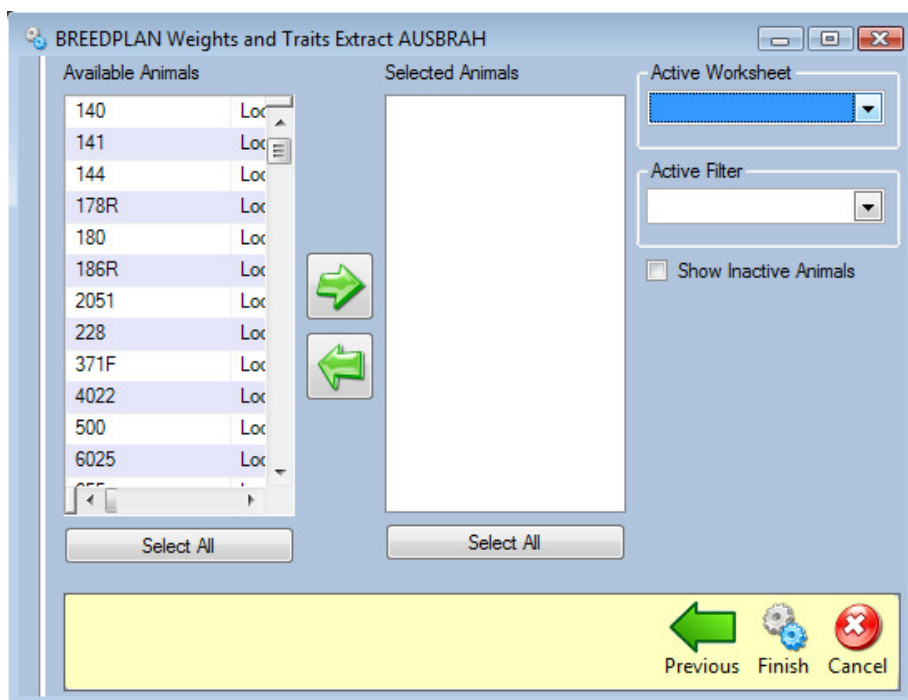

The steps required are as follows:

- 1 Click *Reports | BREEDPLAN Reports | Weights and Traits*
- 2 In the below screen, select the From and To Observations code of Mature Animal
- 3 Select a From and To date that covers the weigh date

- 4 Now Click Next, the following screen will be displayed.

- 5 Set the Analysis Indicator to M
- 6 Click Next, then Next again

- 7 Select the animals you wish to submit weights for, Using a worksheet or Filter will make this easier
- 8 Click Finish to create the report. Check the Report includes the correct animals and weights
- 9 Click the Email 'envelope icon' to email the report to Registry. Alternatively click the Save 'disk icon' to save the report, which can then be attached to an email to send to Registry
