

Request to License an NZ Sire for AI

If you are an owner of a sire from which you have collected semen for the purpose of breeding registerable progeny, that sire **MUST be recorded as an AI sire with the Charolais Breeders New Zealand Inc.**

Tick box for the type of AI approval required:

AI sire Approved “YES” – eg. for semen marketed to other breeders for registered progeny

AI sire “RESTRICTED” – eg. for semen uses within herd ONLY, if applicable list herds

Stud Requesting AI Approval: _____

Animal Name: _____

Animal Herdbook Number: _____

Tick boxes to check:

Animal has SNP DNA Profile 100k or greater lodged with the Charolais Breeders New Zealand Inc. Society

Animal has been parent verified

All known current genetic condition results displayed.

Acknowledgment that a \$100+GST AI Approved Sire fee will be charged to my account (can be split between multiple owners)

Once licensed as an AI sire the SNP data will be available for release to other parties at the discretion of CBNZ for research and parent verification purposes

Signature of Applicant: _____
