COOPWORTH GENETICS NEW ZEALAND INCORPORATED

CONSTITUTION

NAME

1. The name of the Society is "Coopworth Genetics New Zealand Incorporated".

OFFICE

2. The Registered Office of the Society shall be at the address of the Secretary from time to time or such other place as may from time to time be decided by the Council.

OBJECTS

3. The objects for which the Society is established are -
 - (a) To promote and encourage by emphasis on the measurement and recording of productive characters the breeding of sheep most profitable in terms of both meat and wool.
 - (b) To accept for registration such sheep as shall from time to time meet the breeding standards of the Society.
 - (c) To draw up regulations to control breeding selection and culling designed to promote and encourage the objectives of high lambing percentages, long productive life, high growth rates, good weight and quality of wool and easy shepherding in the breed.
 - (d) To promote the continued improvement of the breed.
 - (e) To establish and publish a Flock Book of the Society listing with details, the registered flocks and such other information as the Council may from time to time decide.
 - (f) To appoint Inspectors to examine members' sheep and records and to recommend flocks for registration or otherwise.
 - (g) To collect subscriptions, fees or charges, accept gifts, invest and borrow money with or without security, provide facilities for the conduct of the Society's business, arrange exhibitions, arrange extension and publicity activities, to employ and dismiss staff and perform and carry on all such other lawful acts and things which are deemed conducive to the attainment of the objectives of the Society.
 - (h) To engage in or subsidise any branch of scientific research to further the productivity and profitability of sheep farming.
 - (i) To investigate the use of any genetic material which may be available and to form associated Flock Books incorporating this material if in the opinion of the Council of the day this action would be of national benefit.

MEMBERS

4. (a) A person may become a member of the Society without owning a registered flock.
- (b) The number of members shall not be limited but shall not at any time be less than fifteen.
- (c) Every member who joins the Society must declare in writing that he will abide by the Constitution and Regulations of the Society.
- (d) No person shall be entitled to registration of his flock by the Society unless he will be a member hereof and failure to become or remain a member shall entitle the Council to remove the person's flock from its register.
- (e) All applications for membership shall be lodged with the Secretary and shall bear the signature of members of the Society as proposer and seconder. Council to have power of confirmation.
- (f) On the recommendation of the Council signified by an affirmative vote of not less than 80% of Council members present and voting any person who has performed signal service to the benefit of the Society may be elected a Life Member of the Society at any Annual General Meeting by the vote of two-thirds of those present and eligible to vote. A Life Member shall be entitled to all the privileges of membership without payment of any subscription.
- (g) On the recommendation of Council to an AGM an honorary member may be elected by majority vote.

MANAGEMENT AND COUNCIL

5. (a) The management of the Society shall be vested in a Council of up to eleven members comprising a Patron, a President who shall be Chairman, Vice-President, Treasurer and a Committee of up to seven members each of whom shall be entitled to vote at Council Meetings. An immediate past President shall be ex officio an additional member of the Council for a period of one year after the date of his retirement as President and shall be entitled to vote.
- (b) The Council shall have the power to draw up and adopt regulations governing membership of the Society including the imposition of entrance fees, subscriptions, dues, fines and registration fees, and regulations governing the quality and control of the Coopworth breed and registration of flocks thereof.
- (c) The quorum for a Council meeting shall be five.
- (d) The Council shall have the power to co-opt a maximum for two members in any one year and any co-opted members shall be entitled to vote at Council meetings.
- (e) At its first meeting after the Annual General Meeting the Council shall appoint the Executive Committee comprising the Chairman, Vice-President, Treasurer and one Committee member and may delegate to it all or any of the powers of the Council.
- (f) The Council shall appoint and, where necessary, dismiss Inspectors for the Society.

- (g) The Secretary shall keep the books of the Society, conduct correspondence, write minutes of meetings. The Treasurer shall receive and be responsible for all Society monies. The offices of Secretary and Treasurer may be held separately.
- (h) The financial year of the Society shall commence on the 1st day of April in each year and the Society shall at each Annual General Meeting consider and if it so desires adopt a statement of accounts and balance sheet for the preceding financial year. The Council shall open and maintain a Banking Account in the name of the Society and such account shall be operated upon by such person or persons and in such manner as the Council may from time to time determine.

6. The members of the Council shall be elected at the Annual General Meeting to be held not more than ten months after the close of each financial year. Each member of the Committee of the Council shall hold office for three years from the date of his election. At the meeting of the Council immediately prior to the first Annual General Meeting held following the adoption of this Constitution the Committee of the Council shall decide by ballot those three of its members required to retire by rotation at the end of each of the first and second years after their election hereunder. The Patron, President, Vice-President and Treasurer shall each be elected annually.

7. AFFILIATION:

- (a) The Council may grant affiliation to a Society in another place provided -
 - (i) The Constitution and Rules and Regulations of such Society are not in conflict with the Constitution of this Society.
 - (ii) The title of that Society is acceptable to the Council.
 - (iii) That Society shall agree to representatives of the Council of this Society attending any meeting of members or of the Committee of such other Society provided that costs of such attendance shall not be a charge on the affiliated Society and that any representative of this Society so attending shall have no right to vote.
 - (iv) That Society shall meet the reasonable costs incurred by this Society as a result of affiliation.
- (b) An affiliated Society shall have the right to appoint one representative to the Council of this Society or such greater number of representatives at the Council of this Society shall deem appropriate.
- (c) An affiliated Society shall have full control of the affairs of their members in respect of administration, finance, inspection of sheep and acceptance of sheep for entry in the Flock Book of such affiliated Society.
- (d) Sheep accepted into the Flock Book of an affiliated Society may at the discretion of the Council appear in an appendix to the Flock Book of this Society.
- (e) Notwithstanding anything herein contained this Society may in its absolute discretion refuse affiliation to any Society or may disaffiliate any affiliated Society from time to time.

ALTERATION OF RULES AND REGULATIONS

8. The Regulations made and adopted by the Council shall be submitted to and approved by the next Annual General Meeting of the Society after their adoption or modification.

9. The articles of this Constitution may from time to time be revoked, altered or added to by a Resolution passed at an Annual General Meeting or at a special General Meeting convened for the purpose by a majority of at least two-thirds of the members present and voting.
10. Notice of Annual General Meeting together with the names of Council members due to retire by rotation shall be given in writing to members at least fourteen days before the date set for such meeting and notice of intention to alter articles of this Constitution must be given to all members at least fourteen days between such Annual General Meeting or special General Meeting. The quorum for any General Meeting shall be not less than ten persons present at the commencement thereof.

INTERPRETATION

11.
 - (a) In the interpretation of this Constitution and of the regulations adopted hereunder, reference to members shall include individuals male or female, limited liability companies, firms, institutions or incorporated Societies.
 - (b) A firm, company or institution shall by notice in writing to the Secretary nominate one representative who shall be the "member" and may at any time revoke such nomination and make a fresh nomination.
 - (c) The member shall to the exclusion of his principal be entitled to receive all notices to which his principal is entitled and to attend and to vote at meetings in the name and on behalf of his principal and shall also be entitled to enjoy the membership privileges of his principal to which his principal would have been entitled were he an individual.
 - (d) The Council may at any time without assigning any reason therefore call upon the firm company or institution to revoke the appointment of its member and to appoint some other member in his stead.
12. Voting at all meetings of the Council, the Executive and the Society shall be by show of hands, except where an issue is a major constitutional change or rule change requiring majority support of the Society members whereby Council may decide to utilize the option of video conferencing and therefore voting by e-conference means. The Chairman shall have a casting vote in addition to a deliberative vote. No person however qualified shall have more than one vote on any motion.
13. The Common Seal of the Society shall be in the custody of the Treasurer and may be affixed on resolution of the Executive Committee in the presence of not less than two members of that Committee.

RESIGNATION AND EXPULSION

14. Any member in good financial standing may resign upon giving written notice to the Secretary before the date fixed for the Annual General Meeting. If any member being the owner of a registered flock fails to comply with any requirements of the Society imposed by this Constitution or by any regulation made pursuant hereto for a period of seven days after receipt by him of a copy of the article or regulation claimed to be

breached the Council may deregister the flock and may after giving such member from the Society.

15. In the event of the Society being wound up by a resolution for winding up being passed by the Society in General Meeting the funds and assets of the Society shall be disposed of and distributed as shall be decided by simple majority of the members present at that Meeting. Provided that in no event may the surplus assets be distributed to the members of the Society.

REGULATIONS

SECTION I

REGULATIONS FOR THE CONDUCT OF THE BUSINESS OF THE SOCIETY

1. The financial year of the Society shall end on the 31st day of March in each and every year.
2. At all General Meetings and Special General Meetings of the Society each member shall be entitled to be present and to give one vote upon every question PROVIDED THAT in the case of the equality of votes the Chairman of the Meeting shall have a second or casting vote. Attendance at e-conference shall be deemed valid and therefore have full voting rights, if Council has deemed the issue of sufficient importance to require the e-conference option to be utilized.
3. The Council of the Society shall have the power to fix the honoraria of the Secretary and Treasurer and to authorise payment of travelling and other expenses to the members of the Council and its Inspectors.
4. The Council may draw upon a bank account or bank accounts cheques on which must be the signatures of two of the members of the Executive Committee and cheques payable to the Society may be endorsed by any one member of the Executive Committee.
5. A special meeting of the Council shall be called by the President or any member of the Executive upon receipt by him of a requisition signed by not less than four members of the Council and such meetings shall be held within not less than four weeks from the date of receipt of such requisition.
6. At all meetings of the Council the President shall preside and in his absence the Vice-President and the Chairman for the meeting shall have a second or casting vote in the case of the equality of votes.
7. In the event of absence from not less than two consecutive Council meetings of any Council member without excuse acceptable to the Council the Council may declare that member's position on the Council vacant and may if it so wishes appoint another member of the Society to occupy that position on the Council until the next Annual General Meeting.
8. The Council shall have power to settle and adjudicate upon all disputes between members or between members and the Society on any matters pertaining to the Coopworth breed and the definition, registration and transfer thereof and such decisions shall be binding on the Society and on the member or members.

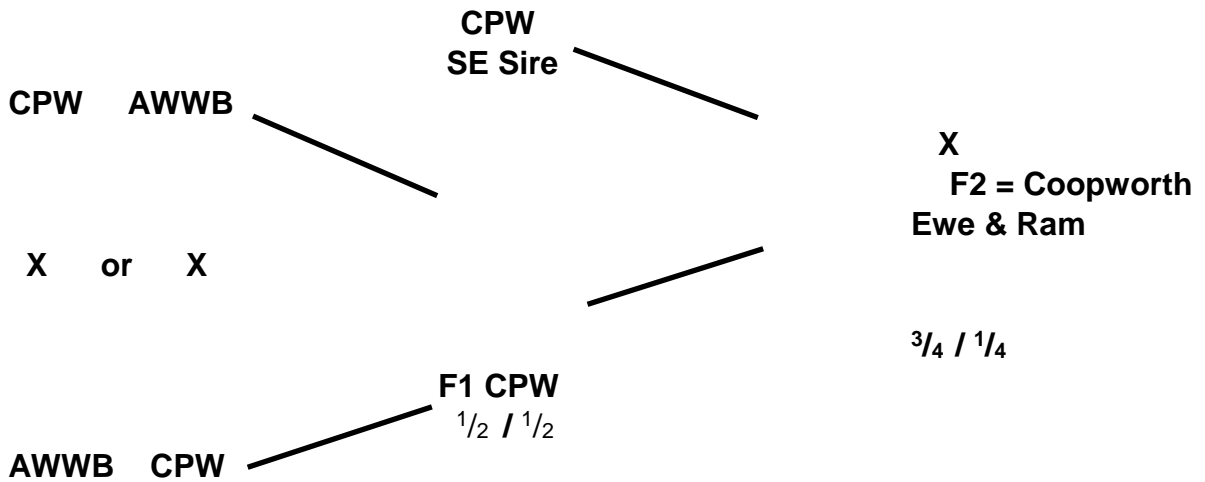

SECTION II ORIGINS

1. The Coopworth breed had its origins in the 1950's and 1960's in the crossing of the Romney ewe with the Border Leicester ram to produce the F1 Border-Romney and the subsequent inter-breeding of them to give F2 and F3 generation progeny, which were then eligible to be known and registered as Coopworths.

Since the 1970's the base of the Coopworth breed has been widened to include sheep bred from white faced breeds other than the Romney, by continued topcrossing with Coopworth rams.

DEFINITION OF A COOPWORTH

2. The present recommended breeding programme to produce a Coopworth, is one (1) topcrossing by a Coopworth Single Entered (S.E.) ram over any other white faced wool breed or wool breed cross ewe. Alternatively registered or screened Coopworth ewes may be mated to any other white faced white woolled ram to produce F1 female stock that then must be mated to a Single Entry Coopworth sire to produce eligible foundation stock under sub section 3 following.

F2 Ewes and Rams are acceptable for entry to Registered Flocks.

ELIGIBILITY FOR REGISTRATION

3. (a) The foundation stock may be either registered (pedigree) or commercial.

The Regulations require that the sheep presented for registration shall have come from foundation stock with a good breeding history and have already been subjected to a high degree of selection based on recorded measurements. The breeder shall currently be recording on a Society approved performance recording scheme and applying Ewe and Sire Summary and selection List data to a progressive breeding policy.

- (b) Sheep presented for inspection and registration must be within DEFINITION (2). They must also have been recorded on a Society approved scheme for a minimum of one lambing, or be the progeny of parents recorded on the scheme, i.e. accompanied by a Two Tooth Selection List. Minimum acceptable performance requirement will be that a ewe has reared a reasonable set of twins or have positive Index for maiden ewes on a Two Tooth Selection List.
- (c) The degree of eligibility may vary according to the known breeding history of the foundation stock and the degree of selectivity applied. Sheep submitted for inspection for registration shall represent the top 20% of their age group based on a recorded performance of fertility, growth rate, fleece weight and be physically sound, growing quality wool and be acceptable representatives of the breed.
- (d) Stock into which the Booroola "B" gene has been introduced, are not acceptable for registration.
- (e) All flocks must hold current Brucella Ovis accreditation
- (f) Council may from time to time progressively raise the standards required for the registration of new flocks originating from Definition 2.

3:1 COMPOSITE BREED FLOCKS

The Society will recognise, inspect and separately accept under the title of Composite Breed Flocks, sheep falling outside Definition of a Coopworth, Section II.

Flocks applying for entry to the Composite Breed Flocks section must have applied Coopworth Society regulations specifically 4 to 11 following, for a minimum period of 3 years. To retain registration as a composite breed flock, subsequent generations must be maintained:

- (a) Subject to Coopworth Society performance and selection requirements.
- (b) Be White faced - white woolled.

DEREGISTRATION OF EWES

4. In order to improve early conception, lambing percentage, lamb growth rate and wool weight and quality, the following sheep shall be deregistered, their ear tags removed and positive identification applied.

- (a) Any ewe (other than a hogget) which is barren.
- (b) Any ewe which on more than one occasion fails to lamb in the first 38 days.
- (c) Any ewe which does not lamb naturally, has a faulty udder, or has bearing trouble.
- (d) Any ewe which prematurely develops poor wool or loses constitution, or develops foot faults or defects.
- (e) Any two tooth ewe which does not rank in the top 75% of latest selection list based on NLW.
- (f) Any four tooth ewe which does not rank in the top 40% of the latest selection list based on NLW

Inclusive of the above, the culling at the hogget stage and after the two tooth lambing shall be such that 40% of that age group must be culled between weaning as ewe lambs and mating as four tooth.

INSPECTION AND REGISTRATION

5. Every sheep in a registered flock or in a flock submitted for registration must be individually identifiable by ear tag as to serial number and year of birth and flock prefix, and these must correspond to the breeder's records.

Breeders seeking initial registration shall apply direct to the Secretary for an application form on which the breeder will give details of the history of the flock and the rams used. Subsequent inspections maybe arranged by applying to the Secretary or District Co-ordinator. The flock and the records will then be inspected by an Inspector appointed by the Council, who shall report to the Council on the form provided. At inspection the sheep shall have at least three months wool growth. The cost of the inspection shall be borne by the breeder. All sheep not passed at inspection shall be positively identified by the owner as having been rejected. All objections by the breeder to decisions of the Inspector must be made known to him and an appeal made to the Council within 14 days of inspection. The Inspector may inspect all rams, ewes and hoggets.

Inspection of rams for Transfer, Sale or use under Certificate of Service requires production records to meet eligibility standards for SE Rams (regulation 8). No physical inspection is required.

Single Entry Rams used for A.I or export require both physical and record inspection.

A list of the sheep passed shall be prepared and submitted to the Council, and if the Council agrees, the flock duly registered. Once a flock has been registered there will be no further inspections of that or any future generations unless otherwise directed by the Council. Any breeder who offers unregistered sheep for registration, will have those sheep and two further offerings inspected. Thereafter Council may give approval for sheep to be added without inspection. Any such additions must fulfil the conditions laid down in Regulation (3).

The minimum size of flock eligible for initial registration shall be 50 ewes if derived from an unregistered flock. Purchasers of ewes from a Registered flock will not be allocated a Flock Number until a minimum of 50 ewes are transferred.

To retain registration it shall be mandatory that every registered flock be on a Society approved performance recording scheme and base its selection on the records.

Inspectors may adjudicate on acceptability of sheep for registration or reinstatement, but must report to Council the action taken.

Notwithstanding these Regulations the Council may register (reinstate) sheep upon written application from a breeder, if it considers exceptional conditions exist. For this purpose the Council may suspend, alter or amend any provisions of the Regulations in respect to that particular application.

No sheep from a Registered flock may be entered into competitive showing, but they may be demonstrated in natural condition if accompanied by display cards giving full productive history.

No fertility enhancing drugs are to be used in registered Coopworth flocks with the exception of embryo transfer programmes.

That all breeders eye muscle scan and record on SIL a minimum of 20% of ram lambs weaned.

FLOCK PREFIX

6. Flock owners are required to submit to the Council for approval and registration, a prefix for their flock. The Registered prefix shall be reserved for the use of the flock owner and shall be used for all sheep born in his flock. The purchaser of a registered flock shall have no right to the previous owner's prefix or flock number without his written consent and the approval of the Council.

DEREGISTRATION OF FLOCK

7. The Council reserves the right to inspect any flock and the records kept, and a whole flock can be deregistered if in the opinion of the Council, on the advice of any three inspectors, the standard of the flock, recording, or any acts prejudicial to the breed, make the flock unacceptable to the Council, or if the rules and regulations of the Society are not being carried out both in spirit or in letter.

Every year a number of flocks will be balloted by Council and subjected to an inspection of records and/or sheep. The owner of flocks not meeting Society requirements, may receive assistance and guidance from Council. If Society requirements are not met the flock may be deregistered at any time.

ELIGIBILITY FOR SINGLE ENTRY RAMS

8. All rams and ram lambs mated in Registered Flocks must be Single Entered.
To qualify for Single Entry a Ram must:
 - (a) Be at least F2 and be born in a registered flock.
 - (b) Be in the top 15% of Index (based on NLW) as shown on the most recent Selection List (Flock Summary - Rams). Alternatively single entered rams may be selected from the top 2% of goal trait leaders and be in the top 25% for overall DPO from across flock analysis where possible, be eligible.
 - (c) That all Single Entered Rams be microphthalmia clear
 - (d) Records of rams for Transfer or use under Certificate of Service must be inspected. Records of rams for "home" use are not required to be inspected.
 - (e) All Single Entered Rams and Ram Lambs used or sold must be accompanied by a Single Entered Ram Form, signed by the Breeder and countersigned by an Inspector in the case of a ram subject to Transfer. The SE card must be fully completed and show all required information as presented by a Society approved performance recording scheme.

Society Standard REV's

SIL Rev's as used in the SIL Dual Purpose Overall Index

Minimum Goal Trait Groups to be used: Reproduction, Survival, Growth, Meat, Wool

- N.B.** When presenting Rams for Single Entry registrations, the most recent fertility record of the Dam must be included in the assessment of fertility. Dots over fertility records indicate that one or more of the lambs born in a particular year was not reared to weaning. Should the ewe have died or been removed from the flock that fact must be indicated by an X.

CERTIFICATE OF SERVICE

9. The owner of any ewes mated with registered rams not his own, must return to the Secretary, the Society's Certificate of Service signed by the owner of the rams.

FLOCK BOOK

10. A Flock Book shall be published annually giving a list of all flock owners and all rams Single Entered. For every flock a history will be given, also listed will be the number of ewes mated, number of ewe and ram lambs weaned the previous season, the prefix and ear tag numbers of Single Entered sires used.

PRESENTATION OF SHEEP FOR SALE

11. Sheep offered for sale may be dipped, (not bloom dipped, covered, trimmed, locked, oiled, plucked, singed or washed), but otherwise wool must be in natural condition.

Ram hoggets, including potential Single Entry, shall in the North Island not be shorn before 20 June, and shall in the South Island not be shorn before 20 July, nor any ram hogget be grazed preferentially until after last hogget input.

Purchasers of **ALL** rams or ram hoggets must receive a Society performance card, showing Index and all required sub indexes and BVs. Rams sold at Auction must have cards displayed on the pens, unless a catalogue adequately covering the Society requirements is available.

ALL sheep offered for sale shall be accompanied by performance information.

Single Entry rams failing Society inspections or adjudicated against at auction sales will not be eligible for transfer, except that rams injured or unwell on the day may be subsequently inspected.

The Society reserves the right to remove a sample of wool for microscopic examination to detect practices contrary to Society Regulations.

TRANSFERS

12. Registered sheep offered for transfer must pass inspection within the three months prior to leaving the vendor's property. Pedigree and Transfer Forms must be signed by the vendor and the purchaser. Transfer Forms to be forwarded to the Secretary before closing date for Flock Returns.

Two tooth ewes sold for transfer must be in the top 75% of latest selection list based on No of Lambs Weaned (NLW)

Sheep inspected for transfer and rejected shall no longer retain registration in the breeder's flock.

Following purchase, further transfers will not be permitted within twelve months, without prior consent of Council. Females purchased by other than a registered or intending registered breeder, will not be subject to transfer.

EXPORT STANDARDS

13. To qualify for an export clearance, all sheep must be inspected and passed sound by any two inspectors prior to commencement of blood testing.
All gene stock exported be tested and shown as microphthalmia clear

REGISTERED SHEEP:

- (i) Rams must be Single Entered and in the top 15% of Index on final Selection List, based on number of registered lambs weaned and F2 or later generation.
- (ii) Ewes must be registered and in the top 50% of Index on final Selection List, based on number of lambs weaned and F2 or later generation.
- (iii) Ewe hoggets must be in the top 30% of Post Weaning Index.
(Note: No ram hoggets will be given clearance for Single Entry.)

COMMERCIAL SHEEP:

- (i) Commercial sheep must be genuine Coopworths which are the progeny of rams from a Registered Flock.
- (ii) Flock rams must be from Registered parents and be from the top 40% of final Index, based on number of lambs weaned.
- (iii) Ram lambs must be from the top 30% of the Post Weaning Selection Index.

ARTIFICIAL BREEDING

14. (i) Artificial Insemination:
- (a) Single Entry rams only may be used for semen collection and storage. Rams must be inspected as if for export - i.e. two inspectors.
 - (b) There will be a semen collection registration charge.
 - (c) The Society will publish a register of rams approved for semen collection and storage.
 - (d) The Society will issue a certificate of approval for semen for export.
 - (e) A Certificate of Service is to accompany Flock Returns to cover semen used by A.I. in Registered Flocks.
- (ii) Embryo Transfers and Freezing of Embryos.
- (a) Population should remain intact.
To keep population intact use Code G - Foster Code.
 - (b) Natural mating to follow or be noted not joined (with option of re-entering lambing list if conceived to a natural mating.)

A donor ewe must be in the top 20% of INDEX on the Two Tooth Selection List and have had a positive B.V.HFW. She must be in the top 10% for her age group in the year preceding her use as a donor.

For the progeny to retain registration they must have been sired by a Single Entered Sire, reared with and recorded with naturally produced contemporaries.

THESE REGULATIONS APPLY TO BOTH FRESH AND FROZEN GENESTOCK.

ANNUAL RETURNS

15. The owner of a registered Coopworth Flock must by the 31st of May each year make available to the secretary a list of sires used, the total number of ewes mated, the number of ram and ewe lambs weaned from the previous mating. It is also a requirement of Society membership that the Society Technical Advisor will have access to breeder's records on SIL for the collation of appropriate data to compile the annual flock book.

SOCIETY REQUIREMENTS

FLOCK RETURNS must be completed and mailed to the Technical Advisor by 31 May each year. Failure to do so will incur a penalty of \$100, plus omission from Flock Book.

SINGLE ENTERED RAMS

- (i) To apply for Single Entry registration of rams, the breeder must furnish to the Secretary a Single Entry Ram Form.
- (ii) S.E. rams for Transfer or Certificate of Service use must be inspected.
- (iii) A **Ram Transfer Certificate** must be completed for each Single Entered ram sold (irrespective of age or previous transfers). The top copy of the certificate, signed by vendor and purchaser, is to be forwarded to the Secretary.

INSPECTION OF EWES

Application for an inspection can be made to a District Co-ordinating Inspector or the Secretary.

Ewes must carry at least three (3) months wool, be clearly identified and drafted into age groups or categories for the Inspector.

All records must be available to the Inspector.

MINIMUM DATA REQUIRED TO BE RECORDED TO MAINTAIN SOCIETY REGISTRATION

- Pedigree
- Number of lambs born (NLB)
- Weaning weight
- Fleece weight
- Eye muscle scan – 20% of Ram Lambs weaned
- Either of Live Weight 6, 10 or 12
- Live Weight 18 (2-tooth mating weight)

SOCIETY FEES

Annual Subscription	\$50.00
Registration of Flock and Prefix.....	\$120.00
INSPECTIONS (Paid by breeder)	
Ewes, per visit, plus mileage	\$10.00
Rams, per ram inspected, plus mileage	\$5.00
REGISTRATION (Paid by breeder)	
Per Single Entry Ram inspected or used in home flock	\$20.00
FLOCK FEE: Based on Flock size	
Annual Promotion Levy	\$80.00
Penalty for failure to furnish a Flock Return	\$100.00
Mileage to be charged at commercial rates	
EXPORT LEVY 2.5% of gross price.	
COMMERCIAL EXPORT LEVY \$100 base fee plus sheep at 10c per head and travel at 60c/km.	

(All Fees Excluding G.S.T.)

SIRES USED

EXPLANATION OF INFORMATION PRESENTED

From left to right across the page, the columns are:

Prefix:	Registered prefix of the flock in which the ram was born.
Eartag Number:	Unique number of the ram.
Year:	Year in which the ram was born.
Index:	Measure of total productivity. SIL MW+M INDEX
Rank:	Based on MW+M Index. Position of ram relative to contemporaries.
DPA:	SIL Dual Purpose Adult Size
DPCR:	SIL Dual Purpose Capped Reproduction
DPG:	SIL DUAL Purpose Lamb Growth
DPM:	SIL DUAL Purpose Meat Yield
DPS:	SIL Dual Purpose Survival
DPW:	SIL Dual Purpose Wool

The flock was founded in 1958 and remained a closed flock until 1984. The genetic base of the flock was widened with the introduction of industry rams in 1984 and 1985. In 1986 all ewes were allocated to one of four selection lines: Control, Production Index, Lean Tissue Growth Rate, Clean Fleece Weight. Intense selection within each line commenced in 1988 and is proposed to continue for 15 years. To enable the policy to proceed the Lincoln flock has been classified as a RESEARCH FLOCK.

Established in 1964, Puketauru Coopworths have been owned and managed by the Abraham family since 1971. Our breeding policy is to select rams that will provide high economic returns to our clients. Our focus is on (1) Leanness of carcass coupled with a fast growth rate (2) Structural soundness with the ability to move freely (3) High fertility and survivability (4) Wool weight and quality (5) Temperament and easy care. We are committed to using new technologies to ensure progressing genetic gain in our flock.

Flock founded in 1969 with emphasis on wool weight and fertility. Flock dispersed into commercial ewes in 1987. Screening of two toothths began again in 1993, sheep selected were above average for growth and wool weight, they also included some progeny from the disbanded Premier Group. They have been mated to S.E rams and since 1995 NZOSR sires have also been used. Breeding policy is to continue emphasis on high wool weights, lean growth and to produce a high fertility sound hill country flock.

The Waione flock has been interbred since the mid 1960's, and ewes screened for twinning and wool mated to Lincoln and Hinenui sires, formed the basis of the recorded flock registered in 1970. A foundation participant in NZOSR, genetics introduced since 1985 have been reference proven, with the flock selection philosophy firmly directed at the 5 major SIL goal traits plus commercial suitability, assisted by muscle scanning and wool sample testing. The flock has also been extensively screened for FE tolerance by GGT blood-test and within-flock bred sires are currently testing at Raqmguard 0.55 (2006).

F.E TOLERANT FLOCKS

Breeders listed below have complied with the following criteria.

A breeder who has been F.E testing for a minimum of 3 years and at a current dose rate of 0.3 or greater may lay claim to having an F.E tolerant flock in the Flock Book.

An F.E certificate covering all qualifying sires introduced into the flock must be sent to the secretary with annual return.
